Description

After a new installation (Hosted by Dreamhost) I discovered that the "show quick url" option when creating a new menu doesn't work in IE8. The link does disappear but the menu doesn't doesn't fold out to the right as it should.

There are no third party programs / add-ons running in this browser.

Note: When creating a new menu in IE8 4 out of 5 times the menu doesn't show up.

Both issues above was tested to work right away in Google Chrome 5.0.375.99...

Solution

None found.

## Comments

**Gary Cunningham-Lee** 31 Jul 10 06:35 GMT-0000

I get a javascript error when I click the "Show quick urls" link in IE8. Line 215, column 1, "Object expected".
