Rating

★★☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆☆ (0) ⓘ

Description

If someone else is editing a wiki page the system will show a warning when you try to edit it. If you proceed to edit the page, it is not possible to preview your changes. Every time you click in the preview button after changing something in the page you are redirected to the warning you already decided to ignore. There is no way to preview your changes if someone else is editing the page.
