Description

Hey there,

I know, that somebody (Xavi? Nelson?) is working on a functionality, called "Clipper", that should allow to choose certain articles headlines and to send them by newsletter.

I think it would be nice/importand to have the possibility, to send not only the header, but also the teaser for every article like the following:

topline  
Headline  
subline  
author, date ...

teaser  
bla bla bla  
link

next topline  
next Headline  
.  
.  
.

Another guy did request this feature for blogs, to give operational stuff the possibility to send the

management daily or weekly reports.

trackerID:5\_itemID:3474

So I think this "clipper" feature would make sense for blogs aswell.

Greetz  
Torsten
