Description
lib/tree/categ_admin_tree.php and categ_picker_tree.php use setFlipWithSign() from tiki-js.js. In trunk, as of r30612, this causes a JavaScript error:

setFlipWithSign() is not defined
setFlipWithSign('categorizeid1');

And the category flip sign is unusable. The problem is setFlipWithSign() was removed in r30170.

Solution
Fixed in r31423 by Jonny Bradley.
