Description

I will report 2 bugs as they appear to be related:

1. If I create a structure in english, create a wiki-top-of-structure, then i translate it in spanish... when spanish users browse the wiki they will see the translated page in spanish but with English title.

see it on <http://mi.solcentral.org/tiki-index.php?page=Sobre+Sol+Central>

2. Also Tiki will not let the user to change from Spanish to English (if accessing with a Spanish configured browser), since the drop down list of languages appears disabled. These happens with many other wikis created in structures.

General Settings:

Tiki 6.0 fresh install.

## Settings in Multilingual:

Detect browser language ON

Show pages in user's preferred language ON

Requires User Preferences Screen (OK)

Users can change site language ON

Display available translations ON

Multilingual structures ON

Requires Structures (OK)

Requires Multilingual (OK)

## Settings in Structures:

Open page as structure OFF
