Description

In Tiki search results, there should be a "also do the same search with the following search engines:"

<http://www.google.com/sitesearch/>

<http://wordpress.org/extend/plugins/bing-404/>

This code worked in 6.x in templates

```
{if $mid eq 'tiki-searchresults.tpl'}<div class="simplebox" align="center" style="padding:5px;border:2px solid #000000">

For additional results, try searching for <strong>{$words}</strong> in:
<span class="button"><a href="http://doc.tiki.org/tiki-searchresults.php?words={$words}&where=wiki">Tiki Documentation</a></span> or
<span class="button"><a href="http://www.google.com/search?q=tikiwiki+{$words}">Search all over the Web with Google</a></span> or
<span class="button"><a href="http://www.google.com/search?q=site:tiki.org {$words}">Search *.tiki.org with Google</a></span>
</div>{/if}
```

Since this will be configurable, we could also encourage people to send the site manager feedback, and thus tell us: what they were looking for and what they were expecting to find

[Offer an alternate search on the results page](#)

```
{if $mid eq 'tiki-searchresults.tpl'}<div class="simplebox"
align="center" style="padding:5px;border:2px solid #000000">

For additional results, try searching for <strong>{$words}</strong> in:
<span class="button"><a
href="http://doc.tiki.org/tiki-searchresults.php?words={$words}&where=w
iki">Tiki Documentation</a></span> or
<span class="button"><a
href="http://www.google.com/search?q=tikiwiki+{$words}">Search all over
the Web with Google</a></span> or
<span class="button"><a
href="http://www.google.com/search?q=site:tiki.org {$words}">Search
*.tiki.org with Google</a></span>
</div>{/if}
```

Marc Laporte 25 Oct 12 21:36 GMT-0000

```
{if $mid eq 'tiki-searchindex.tpl'
}{$words=$smarty.request.filter.content}<div class="simplebox"
align="center" style="padding:5px;border:2px solid #000000">

For additional results, try searching for <strong>{$words}</strong> in:
<span class="button"><a
href="http://doc.tiki.org/tiki-searchindex.php?filter%7Econtent={$words
}">Tiki Documentation</a></span> or
<span class="button"><a
href="http://www.google.com/search?q=tikiwiki+{$words}">Search all over
the Web with Google</a></span> or
<span class="button"><a
href="http://www.google.com/search?q=site:tiki.org {$words}">Search
*.tiki.org with Google</a></span>
</div>{/if}
```
