- ● menu is not expandable - bug in icntoggle() javascript

### Description

I have confirmed this bug (2184) in Tiki 6.3 using Chrome and IE7/8.

I am not a javascript guru so this may not be the most eloquent solution, but it works.

To fix, replace the icntoggle function (line 693) in tiki-js.js with the following:

### Solution

```
function icntoggle(foo, img) {  
  
    if (!img) {  
        if (document.getElementsByName("icn" + foo).item(0).attributes.item("src").value.search(/\V/)) {  
            img = document.getElementsByName("icn" +  
                foo).item(0).attributes.item("src").value.replace(/.*\V(^\V*)$/,"$1");  
        } else {  
            img = 'folder.png';  
        }  
    }  
  
    if ($("##" + foo + ":hidden").length) {  
        show(foo, true, "menu");  
        document.getElementsByName("icn" + foo).item(0).attributes.item("src").value =  
            document.getElementsByName("icn" + foo).item(0).attributes.item("src").value.replace(/^\\V*/$, 'o'  
            + img);  
    }  
}
```

```
} else {
hide(foo, true, "menu");
img = img.replace(/(^|V|\\"o(.*)$/,'$1$2');
document.getElementsByName("icn" + foo).item(0).attributes.item("src").value =
document.getElementsByName("icn" + foo).item(0).attributes.item("src").value.replace(/^V*/$,img);
}
}
```
