Subject

CKEditor breaks links to wiki pages

Version

6.x

7.x

Category

- Error
- Usability
- Consistency

Feature

WYSIWYG (What You See is What You Get)

Wiki Syntax (text area, parser, external wiki, etc)

Description

The symptoms are:

- backlinks work sometimes only
- when deleting a page it does not always become a wanted page
- others ???

The result is:

- unpredictable behavior
- negative impact on the user acceptance

The problem is, that the syntax of the links change:

Example:

1) Type ((Page 1)) in the WYSIWYG mode and save

-> ((Page 1))

2) save again in WYSIWYG mode

-> Page 1

3) save again in WIKI mode

-> [tiki-index.php?page=Page+1|Page 1]

4) save again in WYSIWYG mode

-> Page 1

This makes 3 1/2 different representations of a link to 'Page 1'

Solution

I will open a thread in Tiki-devel to discuss my ideas.

Tiki 8 has several fixes in this area, and it may be OK now
