Description

Tables in form of:

```
||test|test  
test|test||
```

are not parsed correctly since version 1.9.1. Now ist works only the old syntax:

```
||test|test||test|test||
```

Solution

Set the table-syntax you want to use in Admin->Wiki.

Having both Quicktags in there by default is not good - agreed! Gotta think of a strategy for that... but most probably will happen in 1.10.
