Description
 Tables in form of:

||test|test
 test|test||

are not parsed correctly since version 1.9.1. Now it works only the old syntax:

||test|test||test|test||

Solution
 Set the table-syntax you want to use in Admin->Wiki.

Having both Quicktags in there by default is not good - agreed! Gotta think of a strategy for that... but most probably will happen in 1.10.
