Description
After deleting spam, we can Ban users but this should be easier/faster.

Ex.: after deleting a comment or rollbacking a wiki revision, have a link to ban the user.

Or maybe a "ban user" link from tiki-adminusers.php

Within the last 24 hours (June 6, 2012) I had 18 new users sign on to our relatively new site (April, 2012) with what looked like Chinese handles and domains that accessed our l2020.org blogs posting spam. I'm using Tiki 8.2.
