Newsletters not being sent out normally if Gzip output is enabled | Tiki Wiki CMS Groupware :: Development
Newsletters not being sent out normally if Gzip output is enabled

Status

● Open

Subject

Newsletters not being sent out normally if Gzip output is enabled

Version

6.x

Category

- Conflict of two features (each works well independently)

Feature

Newsletters
Performance / Speed / Load / Compression / Cache

Resolution status

New

Submitted by

Rating

★★★★★ (0) ?

Description

When Gzip output is enabled under Admin | Spped & Performance, it is not possible to send out newsletters greater than 100 in number, if at all. When attempting to send newsletters, it shows a 'Cannot load page' message in the frame where the log of email addresses normally appears.

Solution

Disable Gzip output. Newsletters go out normally.
