### Description

GROUP Plugin breaks CODE Plugin

Affects both v6.7 and this site. Worked OK on v4.3

1. Code outside Group

```
{GROUP(groups=>Registered|Admins, notgroups=Editors)}some content{ELSE}other content{GROUP}
```

Now add a {GROUP(groups=>Registered)} include the same code snippet and close out the {GROUP}. Start of CODE within GROUP

```
other content{GROUP}{CODE}
```

End of CODE within GROUP. On v6.7 the code box is displayed and the code snippet is truncated at the start of the Else statement for a registered user. On this site, the code box is not displayed and the code is truncated at the same point for a registered user.

For an anonymous user, on both versions, there is no code box and the user sees "other content{GROUP}{CODE} "

Repeating the code snippet again outside of the restricting Group statement works

```
{GROUP(groups=>Registered|Admins, notgroups=Editors)}some content{ELSE}other  
content{GROUP}
```

The code example is lifted from <http://doc.tiki.org/PluginGroup> with a caption statement added.

Happy to help test any patch,

Martin.
