A workaround can be done in css:

```
pre.codelistings + textarea + div span.cm-tw-deleted { text-decoration: none; color: inherit; }
pre.codelistings[data-syntax] + textarea + div span.cm-tw-deleted { text-decoration: line-through;
color: red; }
```

I added this two lines to the custom CSS section on doc.t.o

Result can be seen here:
