★★★★★ (0) ?

Description

The heading shown when viewing a Notepad item (page tiki-notepad_read.php) displays the text of the "nbsp" entity (surrounded by ampersand and semicolon) between the "Reading note:" and the note name.

Presumably this is intended to be an actual space.

Solution

In templates/tiki-notepad_read.tpl, on line 1 replace the nbsp entity with an actual space (ASCII 32).

Importance

1 low
