Description
When clicking the "unsubscribe" link from a newsletter email the customer is immediately taken to the site where they receive a "You are not logged in" error. If the customer were to first log into the site and then click the newsletter "unsubscribe" link in the email it works fine.

Solution
Edit "tiki-newsletters.php"

Change line 11 to read

```
if ( !isset( $_REQUEST["unsubscribe"] ) ) {
    $access->check_permission('tiki_p_list_newsletters');
}
```

Change line 37 to read

```
if (!$user && $tiki_p_subscribe_newsletters != 'y' && !isset($_REQUEST["confirm_subscription"])) && !isset($_REQUEST["unsubscribe"])) {
```

I have attached an updated tiki-newsletters.php file.
