Description

Hi:

I want to allow users to send photo moblog posts to our Articles section. After setting up an "Article-Put" account, I'm finding that only the text makes it into the article post, not the attached image file. Just to test, I set up a "Wiki-Put" account, and it DOES recognize and include the attachment (not inline, though, but as an icon and a link).

Does the Article-Put feature have handling for including images inline?

Rob

In my installation, I've tested sending tes

As per Tiki23, the mail-in feature has been quit worked on.

While I can't be positive about inline added image I remember (Tiki18 or 21) attachment to a wiki page used to work.

But more than that, using trackers and article trackers capabilities seems to answer the needs. See: <https://doc.tiki.org/Mail-in>
