Description

Using wysiwyg, full screen plugin dialog are hidden under the page (not in full-screen the dialog is on top).

Solution

Revision: 47076

Log Message:

FIX wysiwyg: Make jquery dialogs appear when editor is maximised

Workaround

In a css (i used design) i added :

```
.ui-dialog {  
z-index: 9999;  
}
```

But as the original styles come from jquery ui i guess it is not the clean way. 😊

Thanks Bernard for catching this one.

I've assigned this to Jonny since he's doing a bunch of WYSWIYG work for us.
