Description
Review all mods and decide what should be added to BRANCH-1-10
http://mods.tikiwiki.org/

Please see: To mods or not to mods

criteria:

• license
• size
• security
• potential popularity of feature
• non-reliance on 3rd party code

Plugins that will now be in core (and removed from mods):

• include ok in 2.0, should be removed from mods
• perm
• group (ok) should be removed from mods: wikiplugin_group.php
• wikiplugin_files.php
• wikiplugin_listpages.php ok?, just remove from mods?
• wikiplugin_mouseover.php needs to be fixed, then moved
• wikiplugin_trackeritemfield.php done in 2.0

Reason:
• Great plugins
• Mods installer doesn't work for everyone and there is no documentation for manual install
