Description

Users should be able to add their own data in custom fields in tiki-user_preferences.php

Users could publish their phone number, their ICQ address, etc

We'd like to include a field for Skype. I see \$customfields in the personal info and registration templates. Does that indicate this is already in place? If so, is there some documentation?

Thanks, Bill

See User Trackers

Bernard Sfez / Tiki Specialist 05 Oct 21 08:11 GMT-0000

As per Tiki23 this is achieved by using Tracker users and many of the added options and parameters. So we have Tiki core users and Tiki tracker users, it is very unlikely it is merged back.
