Comments

Frank Guthausen 12 May 14 15:49 GMT-0000

A setup.sh php cli version check was implemented in revision 51244 and the script will stop if local version is not  $\geq 5.3$

Frank Guthausen 12 May 14 16:53 GMT-0000

The php cli version check was backported to branch 12.x in revision 51246.

Frank Guthausen 14 May 14 18:29 GMT-0000

This feature won't be backported to 11.x branch because this one is EOL (end of life).
