Description

Plugin TrackerList accepts these params: filterfield & filtervalue

(see <https://doc.tiki.org/PluginTrackerList>)

In Tiki11 they still work fine. In Tiki12, they found nothing. See reproduced example in show.t.o; basically, applying the Bug_Tracker profile and changing the plugin tracker list code to something like:

```
{trackerlist trackerId="1" fields="1:2:4" showlinks="y" popup="3" status="opc" filterfield="1" filtervalue="bug"}
```

Credentials for show.t.o:

u: admin

p: 12345

Update: Fixed, thanks!

Sounds very much like what i fixed in r48009 - can you retest pls?

Xavier de Pedro 14 Oct 13 09:43 GMT-0000

Hi Jonny:

I retested (r48010), and the problem is still present: no matches found.
