Description

Intertiki used to work in former versions (I don't know when it stopped working, sorry)

I tried to set up a new intertiki set up for the *.t.o family, at the site r.tiki.org (which uses 11.x svn)

However, when I add a new intertiki client at tiki-admin.php?page=intertiki , I get:

Fatal error: Unsupported operand types in /path/tiki11svn/admin/include_intertiki.php on line 41

That line says:

```
$_REQUEST['interlist']+= $new;
```

Solution

fixed in r48641. please svn up your usual way.

Hi Xavi,

can you provide exactly (or as close as possible) what you are entering? I cannot reproduce the problem.

I can provide tiki admin account and root ssh access to server if needed.

Nelson Ko 14 Nov 13 21:03 GMT-0000

Hi xavi, I still can't reproduce it. Maybe it has to do with your php version, but I will have a look on your server.
