Tried on my local 12x and here http://demo.tiki.org/12x/tiki-install.php?install_step=7&lang=en (if you know the magic words) and seems fine on both... custom theme or something maybe?

Nelson Ko 19 Oct 13 22:13 GMT-0000

Something to do with the

public $secure_dir = array(
'',
'img/',
'img/icons',
'styles/strasa/im

in lib/init/smarty.php not taking effect in the installer when the template is compiled.

All the images as part of the remarksbox also do not show for the same reason.
