Description

Note by Nelson to amette: from by looking at the status it looks like the status of the instance is changed to ACTIVE too early, before setup.sh is complete. As already spoken, can you look at it? If it works properly there should not be an additional warning as marc suggests.

Marc: When creating a show instance, the spinner should last longer or there should be a warning to com back in 5-10 minutes, to avoid the user seeing things like this:

Solution

reinvestigating, something is strange. it wasn't like this before.
