Description

When you move a part of a structure to another or new structure, the structure_id will not be updated.

Workaround

Export the structure you have moved, delete the structure without deleting the pages and import the structure.

Without deleting the pages is because the category of the pages will not be imported. so if you set your rights by categories all categories will be also lost.

Could you try to reproduce this bug on a later version of Tiki. either 12 or Trunk using our Tiki Show feature here in the bug tracker.

thank you
