Description
See video

This was discovered as part of Upgrade CodeMirror to latest stable version

---

The same issue happens when you add line numbering in PluginCode sections.
Reproduced also here:
http://dev.tiki.org/Web-based+source+code+editor#Bugs

Solution
I asked Robert to fix it, and he did. Commit: r48995

Workaround
Have spent hours on this, got no where - only options i see are

- to revert back to 2.x which sort of worked
- ask Robert P to fix it
- rewrite the Tiki implementation (i just don't understand most of it)

See here for a few other unresolved problems...

Hey, Codemirror problem with numbering is fixed in trunk!

Marc Laporte 17 Nov 13 02:45 GMT-0000

I tried on demo, but it's not nice
