Description
Auto-TOC is now activated on dev.tiki.org

This is nicer than {maketoc} and th way going forward, but now, we have hundreds of pages with duplicate Table of Contents.

1. Find them all via http://dev.tiki.org/tiki-searchresults.php?highlight=maketoc&date=0&searchLang=&where=wikis&search=Go
2. Remove all the maketoc instance with an edit comment "Auto-TOC is now activated"
3. Check if page looks OK. If not, report issue in Auto-TOC category, so it will appear here on Auto-TOC

A tip...
You should be able to locate all instances of maketoc, using the new "Search all tables" tool, located in the Admin Search panel, on the tools tab.
