```

Solution

I had fixed the "toolbar modified notification (*) always shown for global and spreadsheet".

Also admintoolbar button commonly added to both wysiwyg and wiki. Before admintoolbar icon only shown, when you activate wysiwyg editor. Now I fixed the issue.

Please check this commit id: 48527

@Mani: Looks good now in my short tests. Thanks!

Reset does work but the star stays active. Will assign to Mani
