

- Admin Home
- General Admin
 - General Preferences
 - General Settings
 - ...
 - ...

and page General Preferences is the last one shown.

Url was like [this one](#)

In addition, tabs in the shown pages do not work. Maybe because js comes loaded at the end, and page didn't finish loading?

In any case, the best option for tabs in multiprint is that the notabs option should be automagically implied when doing a multiprint.
