- ● Country field in Directory Site Admin interface unsorted

Description

Countries list in tiki-user_preferences.php is not alphabetically sorted any more

You can see the demo on http://dev.tiki.org/tiki-user_preferences.php

Solution

I had fixed this issue.

Please check this commit id: 48618

Yes, thanks mani, however the list is not sorted still for non-English tiki sites (the sort order comes from English strings only, which might greatly differ from the expected order in other languages).

Can this be sorted taking into account the interface language?

Now, sorting added also for non-English tiki sites.

Please check this commit id: 48672.
