Did you try adding any other plugins into the comments? Maybe there is a bigger issue here or maybe this is a feature?

Hi Mani!

Can you do SVN Bisect and figure which commit caused this?

Thanks!

Xavi (as xavidp - admin) 01 Dec 13 16:57 GMT-0000

The issue seems to be related to editing comments, not to screencasts (bug title was misleading to me).

Therefore, (I had not watched the video), I did open a new bug about edits in comments lost:

<http://dev.tiki.org/item5021>

If you rename the title, Marc, I don't mind closing the other report as a duplicate of this

one.
