Description

Neihter show_image.php?id=NN nor imageNN work as-is after upgrade from 9.x to 12.x

for show_image.php?id=NN inside img plugin, they work again if I add this extra bit to the urls inside the img src="" bit: &scalesize=0

So that this works in Tiki12:

```
{img src=show_image.php?id=NN&scalesize=0}
```

But the default syntax written in the Tiki9 site didn't work after the upgrade to Tiki12:

```
{img src=show_image.php?id=NN}
```
