Description

Action log broken: wiki page editions not shown

Reproduced in demo.t.o/12x:

I've edited today the homepage, and yesterday somebody else did, as it can be seen in the wiki page history or the wiki last changes for the past 2 days:

- <http://demo.tiki.org/12x/tiki-pagehistory.php?page=HomePage>
- <http://demo.tiki.org/12x/tiki-lastchanges.php?days=2>

But when in the action log, nothing is reported as changed regarding wiki pages (and it's set to show wiki editions):

- http://demo.tiki.org/12x/tiki-admin_actionlog.php?startDate_Month=12&startDate_Day=02&startDate_Year=2003&Time_Hour=13&Time_Minute=00&Time_Second=18&endDate_Month=12&endDate_Day=14&endDate_Year=2003&end_Hour=13&end_Minute=00&end_Second=18&categoryId=&unit=bytes&contribTime=w&find=&max=25&list=Report#Report

This feature is very important to be working bug-free since it's one of the easy ways to detect damage by intruders, and ban them in bulk through the action log.

-
For some reason, the day I first tested this and reported as a bug, the years were staying in the past (2003, and not 2013, ...). It seems fixed. Closing.
