### Rating

★★★★★ (1) ?

### Related-to

- PluginTracker does not show input form after saving an item

### Description

Say I use the plugin in on the page "Edit Publisher&itemId=1159".

```
{tracker trackerId="18" url="Publishers" wiki="Edit Publisher Template"}
```

I asked it to go to the page "Publishers" after being submitted.

Instead it goes to

tiki-index.php?page=Edit+Publisher&itemId=1159&ok=y&iTRACKER=1#wikiplugin\_tracker1

-----

In the tiki show instance, I have created a tracker for colors and pages for displaying and editing the items.

1. Go to <http://hrsms-11204-5079.show.tikiwiki.org/tiki-index.php?page=Colors>
2. Click on "bleu". You will be taken to Edit+Color&itemId=2
3. View the source. Note the url parameter is set to "Colors"
4. Change the spelling to "blue" and hit save. You will be directed to Edit+Color&itemId=2&ok=y&iTRACKER=1#wikiplugin\_tracker1. The edit fields will no longer be displayed.

5. Click on the button provided (my workaround) to go back to the "Colors" page, where you will see the change did take effect.
