Description

dev.tiki.org has two menus at the top. They become a click to open icon.

Clicking on one or the other always open both

Comments

Gary Cunningham-Lee 02 Jul 14 00:18 GMT-0000

I also see the behavior of both (all?) menus opening if any one is clicked, but I can still access the menu items OK, although I have to scroll the page to relocate my position sometimes. Is this what you see?

Marc Laporte 07 Jul 14 19:49 GMT-0000

We both see them same thing
