Go to the section "Contributors to this page" and mouseover the names one by one: Torsten Fabricius, Marc Laporte, Rick, Oliver Hertel, ...

Solution
It is slightly better now if you move your mouse slowly it helps. Apparently this is a known problem that affect others across the Internet. The recommended solutions is to replace all of these rollover to be click->popup which also has the benefit of making it usable on a mobile device. This is scheduled to be done in trunk (can backport to 13.x when ready).

r52053 should nail it hopefully
