- ✘ 13.x: User Tracker can't be chosen in the interface to edit groups

Description

13.x: User Tracker can't be chosen in the interface to edit groups
Tried with Registered, following the instructions of the profile "User & Registration Tracker".

This profile instructions In 12.x still work like a charm, as usual. But in 13.x, there is no option to show the field to choose the "User tracker"

See it reproduced here:

<http://xavi-9794-5307.show.tikiwiki.org/tiki-admingroups.php?group=Registered>

u: admin

p: 12345

Solution

r51895 wrong preference name condition to display users tracker, also some code formatting and adding missing closing div that was breaking the layout

please test, should be ok now

Tested, fix confirmed. Thanks!
