Tabs seem to work ok for me in a simple test - basically there's a missing close div somewhere, and i see one line:

^ {TRACKER}

...that looks like the start of a centred div and a tracker plugin with all the params missing - so i don't think there's anything wrong with the tabs... maybe try a simpler test?

Hi Jonny, I simplified the syntax in that page, and the problem seems to be with PluginTracker inside PluginTabs.

This works:

```
{TABS(name="votingsystem" tabs="New Vote|Results|Extra Info on the Voting System" toggle="y" inside_pretty="n")} {TRACKERLIST(trackerId="2" fields="28:29:30:31:32:33:34:35")}{TRACKERLIST} ///// foo ///// bar{TABS}
```

But this doesn't:

```
{TABS(name="votingsystem" tabs="New Vote|Results|Extra Info on the Voting System"
```

toggle="y" inside_pretty="n")} {TRACKER(trackerId="2" fields="28:29:30:31:32:33:34:35")}{TRACKER} ///// foo ///// bar{TABS}
