- ● Plugin Slider interferes with expected behavior of ui for anon in homepages

Description

Hi,

Can someone try to connect to the tv site and tell me you have difficulty?

<https://tv.tiki.org>

I'm unable to log in and the slider dissapeared.

Is it just me?

Daniel.

Good Catch, Daniel, issue confirmed. Maybe there is some interference with PluginSlider, or maybe a regression coming from somewhere else.

You can log in through the direct login url:

https://tv.tiki.org/tiki-login_scr.php

Once there, if you go to the homepage, you can see the slider working in the homepage. But once you logout again, the slider is gone, and clicking at the login link in the header does nothing for me.

No idea how to solve, or where the source issue comes from.
