

and will correctly display: Home 

However when the same menu is displayed using a bootstrap menu format something goes wrong with the wiki parsing causing an additional / to added to the end of the img tag ie

```
<li> <a href="tiki-index.php?page=HomePage">Home  </a> </li>
```

this is then displayed as:

```
Home 
```

ie showing all the html

this seems to happen because in templates/bootstrap_menu.tpl (and also bootstrap_menu_navbar.tpl) the **escape smarty modifier** is used on the value of the link

this is just an observation, not sure what to do with it 😊
