Description

for some reason, the echo on irc from teh new bugs reported on dev.t.o/tracker5 doesn't include the bug report title anymore (the first isMain field in the Tracker)

It was quite handy.... and I wonder if it's easily recoverable...

If it's by RSS, perhaps check [http://dev.tiki.org/tiki-tracker\\_rss.php?trackerId=5](http://dev.tiki.org/tiki-tracker_rss.php?trackerId=5) to see for issues compared to before.
