Description
This is flagged as a regression but it is in both 12.x and 13.x so may be an old bug ....

... but when a newsletter previously created with the wysiwyg editor (ie it has had the various HTML flags set), it shows the raw html when it is retrieved from the archive for simple viewing - but it is OK if retrieved for immediate resending

.. just to confirm that this is still a bug in Aug '15 at r 55993

Solution
r55997

Fixed
