Description

13.x: tracker field type 'header' stopped displaying a hidable section and header level parameter makes no change

In 12.x, it still works as expected

Example in 13.x

Reproduced in 13.x here:

http://xavi-9794-5432.show.tikiwiki.org/tiki-ajax_services.php?controller=tracker&action=insert_item&trackerId=1&modal=1

u: admin
p: 12345

header fields are "More Personal Data" (id 27) & "Even More Personal Data" (id 28), as heading level 2, open by default. But they are displayed as non header, and non hidable/closable.

Example in 12.x

Compare with the equivalent setup for 12.x here:

http://xavi-9794-5294.show.tikiwiki.org/tiki-view_tracker.php?trackerId=2&cookietab=2
