Description

13.x in dev.t.o: some toolbar buttons like wiki link broken (reload the whole page) . Try while reporting a bug.

Tried to reproduce in a show instance:

<http://xavi-9794-5448.show.tikiwiki.org/tiki-index.php?page=Community+Members+HomePage>
(u admin p: 12345)

but I can't: it works there. It seems to be something specific in dev.t.o

Hi Xavi,

I can't reproduce the bug anywhere and it seems working fine in both 13.x and 14.x, asked Gary about it, for him also it's working fine.

Thanks.

ok, thanks for testing and closing if it works for you.
cheers
