Description

FADE objet dont work well at all.

Wathever I will put after after a fade that will not work.

I try to put a space and after a list.

Each of these try will not work.

This one will not put a space before.

test

This one still not put a vertical space before.

test

This one will not take care of the * and list will not popup corectly.

test

This one will put too much space.

Regarding the third case, what do you mean by "will not take care of the * and list will not popup corectly"?
