Just FYI, I don't get the warning when viewing the site with my (oldish) iPhone 4s - iOS 6 .

on Desktop browser. Does it give a hint?

That message should appear only when bootswatch_themes.css is selected in the theme control module but an option, that is, one of the Bootswatch themes, isn't selected. The Cosmo theme was missing the import of bootswatch_overrides.less. Should be fixed in r53491.
