### Description

Tracker items on tiki-view\_tracker.php can have a link that displays information in a popover. The link also is used to display the item's page. But hover no longer works to display the popover. A click is required. But since the click is used to display the popover, it no longer works to link to the item's page.

### Solution

Fixed in 14.0 r54138. wolfganga

Note: Fixed also related issue in ImgPlugin.

### Workaround

None

### Importance

#### Comments

WolfgangA 28 Feb 15 13:18 GMT-0000

Confirmed and mentioned in IRC. Seems bootstrap related.

WolfgangA 28 Feb 15 14:56 GMT-0000

Problem is in lib/smarty\_tiki/function.popup.php - the default fallback for trigger is no longer there
