Description

Plugin ColorBox was working in Tiki6, (and probably Tiki9, although unconfirmed at this moment)

Reproduced here (14.x):

<http://nextdoc.tiki.org/PluginColorBox#Example>

and

here (13.x):

<http://doc.tiki.org/PluginColorBox#Example>

Solution

Eventually fixed with r54183 in 14.x, and backported to 13.x (r54201) and to 12.x (r54202)

just checked on a 12.1 site:

Last update from SVN (12.1svn): Wednesday 25 of December, 2013 19:49:41 CET- REV 49261

Hi Torsten:

Ca you try an equivalent fix in your localhost 12.x first, like in r54183 (14.x)?

And i fso, do you feel like in backporting-mood to 13.x and 12.x of that fix?

Thanks! 😊

Hi Xavi, I do not know about a patch or fix.

In 12.1 SVN REV 49261 it just works.

no problem, done backporting the fix myself.

Cheers

notes: checked in Tiki14, it works with File Gallery only if the file id filter is not empty. If empty, than than images are not shown.

I guess it should work with empty fileid filter (lib/wiki-plugins/wikiplugin_colorbox.php around line 147-150)

Can you test with r54183 in 14.x, please?

gezza 02 Mar 15 13:32 GMT-0000

xavi, the code editor you use seems to be adding dots instead of tab for intendation

Xavier de Pedro 02 Mar 15 15:05 GMT-0000

Hi gezza,

I was using phpstorm.

I can't see the dots, though:

<http://sourceforge.net/p/tikiwiki/code/54183/>

How can I see those dots?

(maybe I have some wrong setting in phpstorm, or something)

gezza 02 Mar 15 16:03 GMT-0000

i meant spaces that appear as dots 😊

i attached a screenshot about it

Replied to

i meant... Thanks, gezza. I wonder why phpstorm was inserting spaces there for me. Fixed.
