Related-to

- ✖ Cannot add a user to groups wit the new popup dialogue

Description

When I click the delete icon for a user in the list at tiki-adminusers.php, a modal dialog displays that says only "null". But the user isn't deleted.

Solution

Fixed with revisions 54400 and 54402.

maybe helps:

If you enable feature_ticketlib2 (Protect against CSRF with a ticket), than a more meaningful message comes: Bad request - cross-site request forgery (CSRF) detected. Operation blocked
need to check lib\core\Services\User\Controller.php and lib\core\Services\Exception\BadRequest.php

probably same problem with <http://dev.tiki.org/item5588>

Jonny Bradley 12 Mar 15 15:49 GMT-0000

Works perfectly for me (14.x on r54341) - any chance of a show instance please?

gezza 12 Mar 15 20:24 GMT-0000

created show instance (pw: 12345), created one user and disabled feature_ticketlib2
go to: tiki-adminusers.php
and try to delete user1

Jonny Bradley 13 Mar 15 19:12 GMT-0000

I think the problem is with sefurl, it works ok with it enabled (but doesn't work on show, does it? don't know how to enable .htaccess)

It's messing up the ajax request and it's fixable, but i think i need to discuss this with Lindon so i don't break anything while trying to fix it, there are a few things that i don't quite get.

gezza 14 Mar 15 09:31 GMT-0000

yes, switching on SEFURL seems to help

but there is another dependency: you also need to have Preference feature_ticketlib2 enabled
(Preference name: feature_ticketlib2)

Torsten Fabricius 13 Mar 15 22:17 GMT-0000

Imho the issue would be caused by the new JS popup like dialogue, added after REV 53927.

I just wanted to say that I could not confirm that SEFURL might be connected BUT ...

... switched on SEFURL on a trunk, where I have the problem and swoosh ... problem disappeared:
CAN add user to groups and can delete user, once I activate SEFURL.

I hope that helps.

Torsten
